

2-Way Wireless Slim Door /WindowContact

Description

The 2-way Wireless Slim Door/Window Contact is a small footprint device ideal for wireless perimeter door/window protection in residential and commercial applications. The Slim Magnetic Contact provides improved performance with higher sensitivity. The Wireless Slim Door/Window Contact is designed for simple installation and easy battery replacement.

Features include

- Communication: 2-way wireless protocol
- Tamper protection: Back and cover
- CR2450 Battery
- Universal or Shutter input (optional) by using RA78UNI

Product Specification

Model	RWX78M3
Parameter	
Electrical	
Standby Current Consumption	4µA
Supervision Time	0-255 min.
Battery Type	CR2450 Lithium Battery
Battery Life	2 years typical
Low Voltage Threshold	2.35V
RF transmitting frequencies	433.92 MHz, 868.65 MHz
Output Power	10mW Max
Physical	
Enclosure Dimensions:	Detector: 65.5x30.5x10.5 mm Magnet:65.5x10x10.5 mm
Weight	30 gr.
Color	White
Environmental	
Operating Temperature	-10°C to 55°C (14°F to 131°F)
Relative humidity	Approximately 75% noncondensing
Certification	EN50131-2-6 Grade 2 ENV Class II
